

## **Webinar: Retrofit, The Key To Achieving Carbon Neutrality**

### **Organizer:**

- HKIE Gas and Energy Division

### **Supporting Organizations:**

- ASHRAE HKC
- BSOMES
- EI(HK)
- HKAEE
- HKIE BS Division
- HKGBC
- HKIE MMNC
- IMechE

**Date: 9<sup>th</sup> Dec 2022 (Fri)**

**Time: 6:00pm – 8:00pm**

**Format: Zoom / Face to Face Sharing (Limited Seat)**

**Venue (for Face to Face Sharing): James Chiu & Dragages Room, HKIE Headquarters, 9/F Island Beverley, No. 1 Great George Street, Causeway Bay, HK**

**Registration Fee:** Free of Charge

**Language:** English

### **Event Highlight:**

Retrofit is the key to achieving carbon neutrality by 2050. The EMSD, HKGBC, and 5 other organizations have just signed a MOC with the objective of driving retrofit to the Greater Bay Area. Following the signing of the MOC, HKGBC has recently launched a retrofit guidebook to facilitate the industry to mainstream the adoption of retrofit. The presentation will address the importance and challenges of retrofit, give a brief introduction to the retrofit guidebook, and what HKGBC is planning to create a retrofit market in order to achieve the vision of carbon neutrality.

## **Speaker:**

**Ir. Dr. Cary Chan** is a professional engineer and is currently the Executive Director of Hong Kong Green Building Council with the vision of driving the green building agenda for Hong Kong.

Cary is regarded as an expert on building energy efficiency by the industry. Cary has carried out a lot of researches relating to the enhancement of building energy efficiency. Up to now, a number of his work have won international awards.

Cary played a key role in establishing Hong Kong's Green building assessment tool back in 1995. Since then he has been playing a leadership role on sustainable buildings within Hong Kong and abroad. He's been appointed as the Chair of World Green Building Council's Asia Pacific Regional Network on 1 July 2021.
